THE SIZE OF THE PACKAGE.

All Efforts to Restore It Have Thus Far Failed.

Col. Julian S. Carr was in the city this morning enroute home from Washington, where he had been, in company with other North Carolina tobacco manufacturers, to confer with the law-makers in reference to the change in the weight of packages of smoking tobacco.

Col. Carr's trip to Washington had nothing to do with paying off the first regiment, as stated by the Durham correspondent of the morning papers. It was primarily and ostensibly for the purpose above named. His interest in the soldier boys is as great as ever. He made the effort to aid them ingood faith and in all sincerety and was turned down, good intentions, pocketbook and all, by the authorities in Washington.

The object of his trip, however, is not yet accomplished, and, perhaps, will not be. The change from two and four ounce packages will very greatly inconvenience manufacturers and it is said will cost enormous sums of money. The machinery in use was built specially for the sized packages made, and will have to undergo great changes or be replaced with new machinery.

Feeling it his duty to attend the meeting of the board of directors of the Oxford Orphan Asylum tomorrow Col. Carrleft Washington before anything definite was known. He may return and renew his efforts in the matter.

THE BRIGADIER APPOINTMENT.

There Must Be Politics in it Says Mr. Linney.

Capt. R. B. Glenn, brother of Gen. James D. Glenn, was here this morning returning from Washington, where he had been in the interest of the appointment of a brigadier general. But for the determination of Mr. Linney that the appointment must be a politieal one, our esteemed townsman James D. Glenn would undoubtedly have received the appointment.

As it is the plum will go to Charles Cooke, who is a good fellow, but who is not in a true sense, qualified for the duties of the position. Gen. Glenn has had experience in military tactics and aside from this, which is pre-eminently an essential, is in many other ways admirably qualified for the position of brigadier general.

There is too much politics in this war. It is destined to be a long war—it will not end by the first of August as Mr. McKinley has (seemingly) so confidently given out. The pie-eaters, some of them, are badly behind on pie, and when they get pie they must be given time to eat pie.

The Elm Tree Beetle.

Communicated.

This terror of which an article was published here last week, from the agricultural department,, is getting a dangerous hold within the city, Exceedingly prolific and bearing three broods a year, after consuming the Elm it attacks all trees. It is useless for the owner of a single lot to combat them, as the egg is deposited by a fly. This must be done systematically by the city and everywhere they make their appearance. The department says do it immediately, mix one fourth of a pound of Paris Green in a fifty gallon cask of water and apply with a spray pump and keep the Paris Green well stirred up. This is a very cheap and so are the spray pumps; or if desired Mr. Lindley kindly offers to lend his pump and doubtless Mr. Young would do the same. We respectfully and urgently ask the city authorities to take action in this matter at once.

Our Trees.

A Visitor's Idea.

A prominent gentleman from a Virginia city who was here a few days ago after being driven over the city remarked: "The greatest need of your city is more street improvement." And he is everlastingly correct. When Greensboro gets down to finishing her streets where grading has been done then you will see the place going forward at a rate that will be a stunner to those who have a weak faith in this city's future.

Blanco's Typewriter Enroute to Spain--Troops Are on the Go--McKinley's Quiet Day.

By Cable to THE TELEGRAM.

Santiago, June 22—Cuban insurgents report to Admiral Sampson that it is well understood in the city that Admiral Cervera means to make an attempt to run through the channel and evade the American fleet at the first favorable opportunity. The vessels of his squadron are kept constantly coaled to their utmost capacity and lookouts have been stationed to report to the admiral any favorable opening. Cervera is getting desperate and is willing to take any chance.

WILL REINFORCE SPANIARDS.

Off Santiago, June 22—Admiral Sampson has been notified that Gen. Pando is marching with a large force to re-inforce the Spanish soldiers at Santiago. It is said that a large number of insurgents has been placed in the rear of the city to cut off the approach of the Spaniards. It is highly probable that Pando will fight his way through and reach the Spanish soldiers now in and around Santiago.

ONE OF THE TYPEWRITERS.

Kingston, Jamaica, June 22—The steamer, Adula, arrived here with nearly one hundred foreigners aboard. All of them were Spaniards. Among the passengers was Charez, the secretary of General Blanco, who is now on his way to Spain bound on a secret mission. He is traveling under an assumed name.

THREE GRADES OF ROCK.

A Look At The Work Being Done on Summit Avenue.

There is only one thing the matter with the work on Summit avenue—and that is the same kind of work cannot be done on every street in the city. There may be a weakling here or there who will groan and say "it is costing too much," but work is being done there that will stand for ages. An easy grade, broad street, covered with a thick coating of coarse rock, a finer cover on that and a still finer grade as a final covering Summit avenue, will when completed be the best and prettiest street or driveway in North Carolina.

The driveway is sixty-four feet broad between the curb stones, affording ample room for vehicles and bicycles to pass without danger of collision. The work is progressing finely and Mr. Abbott, the overseer, says he is keeping up with the crusher and completing about seventy-five feet per day. At this rate the work will be be complete by September. Seven teams are now employed hauling rock from the quarry near by.

Along near the avenue the Summit avenue building company is having some handsome residences erected. The avenue is underlaid with sewer, water and gas pipes, thus affording these conveniedces to any who wish to build out there.

SPANISH PLOT DISCOVERED.

Hanna Knocks Up Gen. Macias' Little Scheme.

PURISSIMA PASSES BLOCKADE.

Alfredo Sails for Cuba—The Buffalo Rejected—More Troops Leave Monday for Manila.

By Cable to THE TELEGRAM.

St. Thomas, D. W. I., June 22—Consul Hanna has discovered a plot of the Spanish, originated by Governor-General Macias, of Porto Rico. The scheme has for its object the embroiling of the United States in a quarrel with the powers. The governor has had four cannon mounted on the heights between San Turce, a suburb of San Juan, and the sea in order to attract the fire of the American warship to that quarter. This particular section is peopled exclusively with prominent foreigners among whom are fourteen consuls. Macias' plan was to cause a wholesale slaughter of the foreigners during a bombardment which would lead to foreign complications. The authorities have been notified.

A REPORTED LANDING.

Kingston, Jamaica, June 22—The Spanish steamer Purissima Concepcion laden with food and supplies and a hundred thousand dollars in gold, it is reported, has eluded the American blockading ships and has arrived at Trinidad.

Trinidad is a seaport city on the southern coast of Cuba. It is situated about 50 miles east of Cienfuenos and about 350 miles west of Santiago.

BOUND FOR CUBA.

New York, June 22—The former filibustering vessel, but now the first vessel of the Cuban navy, the yacht Alfredo left here this morning for Cuba.

WILL SAIL MONDAY.

San Francisco, June 23—The third expedition to the Philippines will leave here Monday. General Wesley Merritt will leave on the steamship Newport on the following Wednesday. He will probably be accompanied by the Seventh California regiment. Several hundred volunteers arrived this morning and the companies of this regiment will soon be recruited to their maximum strength.

BUFFALO REJECTED.

Newport News, June 22—Orders have been received here stopping all preparations for arming the cruiser Buffalo. It is believed the vessel has been rejected.

In Court Circles.

All yesterday afternoon the court was occupied with hearing the evidence in the case of John Harrell vs. Southern railway for $2000. damages. This morning argument was begun by the counsel.

The verdict rendered yesterday in the case of M. L. Cable vs. Southern railway has been set aside by Judge Robinson. Mr. Cable was granted indemnity to the amount of $2500 for injuries received. A new trial will be held.

The application of the Postal Telegraph company for right-away over the Southern railway's line will be argued before the court this afternoon.

Cooke as Brigadier.

C. A. Cooke, of Warren county, has received the endorsement of the North Carolina delegation and Senator Pritchard has presented his name to the president for appointment of brigadier general. It is very probable that the president will follow the recommendations of the Tar Heels and it will soon be Brigadier General Cooke. It will be remembered that this same commission was offered to General Hoke but he declined it.

New Episcopal Church.

Work has been begun on the new Episcopal church on Walker avenue. The work of laying the brick foundation has been about completed and we learn the work of building the church will be pushed rapidly to completion.

ANOTHER NUISANCE.

This Time it is One That Can Be Easily Remedied.

The Telegram has heard much well deserved complaint leveled at our city fathers and particularly the sanitary police in regard to a certain nuisance that has lately become very prominent. At one time it was the custom for scavenger carts to remove all waste in the night when the streets were almost deserted and no one stirring. But that day is past and it is not an usual, but almost an every day occurrence for these wagons to do their work in the daytime when the streets are crowded with all classes of people. We are sure that it has been merely an oversight on the part of sanitary officers and when it is called to their attention this nuisance will be remedied.

The Aquatic Race.

By Wire to THE TELEGRAM.

New London, Conn., June 22—Everything is in readiness for the big boat race this afternoon. Ideal weather prevails. The three crews are ready and show no nervousness. There is a fair amount of betting and Cornell remains the favorite.

Living Up to His Name.

That good and galland fellow, Gen. Fitzhugh Lee, talks pathetically of the trouble he has always had to live up to his historic name. He may console himself, however, with the reflection that he has done a good deal to increase this same difficulty for his descendants.

There is uo "just-as-good" argument ever advertised by this store. AS TO FUSION.

Governor Russell's administration has been checkered with resignations both abstract and concrete. In his usual graceful and polished manner, His Nibs has accepted one from Judge Norwood, via Lusk, delayed in transmission, and filed it away with several others as souvenirs of pleasant incidents during his stay in the Gubernatorial chair. It is a little awkward for the republicans and their populist allies that this resolution should bob up at this particular time. Perhaps it is "retribution." At any rate this incident once more and most vividly impresses upon the minds of the voters of North Carolina the incompetency and worthlessness of anything in the fusion line. In bold contrast appears the dignity of the court in former days by reason of judges of integrity and worth and the ridiculous position it now holds because of inferior and incompetent fusion judges. The state will soon witness the spectacle of two so-called judges contending as to which one is entitled to hold court in the Twelfth district. No matter which one is successful, from the next session of Northampton court will ascend, as monuments to the beauties of fusion, appeal after appeal to the Supreme court. A long legal battle is promised by the deposed dispensor of justice and another Wilson incident will delight all North Carolinians. It now seems probable that an opportunity will be given the voters of the Old North State to crush out fusion and place men of recognized ability and integrity upon the bench. With a concentrated effort it can be accomplished; without it another nightmare of fusion mistakes is in store for her. "The Lady or the Tiger"; which will ye choose?

The "pitchfork" will invade Cuba.

It is about time for His Holiness, the Pope, to appear with another offer to mediate.

A certain Emperor who effects a yellow coat should remember the old story about a bull in a China store.

Just give Sampson and Schley a chance and it will be unnecessary for the Spaniards in Caimanera to set fire to the oil and straw.

That feeble and fantastic fleet of Admiral Camara is beautifully verifying the truth of the old saw that birds come home to roost.

It is well a Bromo-quinine factory will be established at Asheville. By the time the sheriff of Buncome hears all the arguments as to who is judge in the Twelfth he will be fully able to consume its entire output.

Don Carlos when all else fails says he will restore the national honor of Spain and redeem her. Poor fellow! always was visionary but it was not thought he could imagine so chemerical a thing as Spanish honor.

From the wisdom of the Kansas populists we pluck the following brilliant pearl:

We demand the enactment of a freight-rate law giving to a court of railway commissioners, to be elected by the people, the power to fix rates and classifications of railways, and the further power to compel the railways, to make full reports with reference to their business.

The wise solons of the sunflower state little reck what great and good things are in store for them should such a measure become a law. The populist campaign speakers have only to tear a few leaves from the political and judicial history of North Carolina during the last few years to supply themselves with all that is needed to win for them an "unparalelled victory."

General Blanco's order to fire on all American vessels within six miles irrespective of flag flown, offers little hope that any further negotiations for Hobson's release will be received by Spain. Whatever may be done with the Merrimac men, Blanco dares not do them any bodily injury. To ill treat his prisoners would call from the powers a cry of indignation and cause Spain's greatest friend, the Pope, to hold up his hand in mild rebuke. Even Europe would lose respect for Spanish honor and all contemplated aid would be withdrawn from Spain. No, Hobson's health will remain good and his place of abode will still be Morro Castle. He proves more effective in saving the castle from destruction than all of Spain's gunners combined.

General News in a Nutshell.

General Linares, the commander at Santiago, who is said to have 15,000 men under him, is fifty-five years old. He is described as a man of medium size, and rather slender in build. There is something sad in his face; he is a man who seldom smiles, and the first impression he makes upon a stranger is that of a dreamer.

The Duke of Edinburgh when a youngster was like most others in that he had a habit of running through his allowance. When his pockets were empty he used to fill them by cutting the signatures from his royal mother's letters and selling them for what they would bring.

The export of coffee from the Philippines has recently declined from 2500 tons per annum to less than three hundred, probably owing to the revolution and to changes in the Spanish custom house methods. The berry was introduced into the islands from Brazil in the latter part of the eighteenth century.

Three Italian schoolmasters were among the applicants for the recently vacated post of public chimney-sweeper at Poschiavil, Switzerland. The pay is $160 per year.

In reading aloud the list of absentees from the Sunday school of the Grace Episcopal church at Oswego, N. Y., on a recent Sabbath the superintendent came to the name of "Joe" Powell, whereupon the whole school broke out into applause. "Joe" is Cadet Joseph W. Powell, U. S. N., who so pluckily stood by in a launch to aid Hobson after the sinking of the Merrimac.

A German scientist claims that the memory is stronger in summer than in winter. He says that among the worst foes of the memory are too much food, too much physical exercise and too much education.

Though Jay Gould died in 1892, his affairs are still partially unsettled. The state of New York imposed a tax of $587,000 on his estate; his executors contested it, and the case is now before the Court of Appeals. This is probably the final step in its settlement.

Here is a word to the wise from a Greenville, Miss., weekly: "There is a little stir among some of the young ladies about all the young men volunteering to go to war. Some of the girls' advice the boys to go, and some is not to go. Now, young man, if your girl advises you to go, you can put it down that she don't love you, neither her country. Old editor, don't get too gay."

For fifty years the city of Grenoble, in France, has maintained a municipal resturant and kitchen, where meals are cooked and supplied at cost. The food is of the best quality; the cooks skillful, and the service is excellent. One may dine there on bread and soup for three cents, and have his hunger thoroughly appeased, or may pay twelve cents and enjoy a course dinner.

Something to Depend On.

Mr. James Jones, of the drug firm of Jones & Son, Cowden, Ill., in speaking of Dr. King's New Discovery, says that last winter his wife was attacked with la grippe, and her case grew so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into hasty consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from first dose, and half dozen dollar bottles cured her sound and well. Dr. King's New Discovery for consumption, coughs and colds is guaranteed to do this good work. Try it. Free trial bottles at C. E. Holton's drug store.

The True Remedy.

W. M. Repine, editor Tiskilwa, Ill., "Chief," says: "We won't keep house without Dr. King's New Discovery for Consumption, coughs and colds. Experimented with many others, but never got the true remedy until we used Dr. King's New Discovery. No other remedy can take its place in our home as in it we have a certain and sure cure for coughs, colds, whooping cough, etc." It is idle to experiment with other remedies, even if they are urged on you as just as good as Dr. King's New Discovery. They are not as good, because this remedy has a record of cures and besides is guaranteed. It never fails to satisfy. Trial bottles free at C. E. Holton's drug store.

If We Only Knew!

If all nursing mothers could only know the true worth of Mrs. Joe Persons Remedy, a world of suffering and trouble would be saved. It is the greatest medicine I ever tried in my life. I have a large family of children, and I do believe I am indebted to Mrs. Joe Person's Remedy for having raised them all. When anything is the matter with my children I give them the Remedy, and there is never any need to give them soothing syrups, paregoric and things of that kind. The Remedy keeps them well and healthy, especially when teething, and they never need anything else. One of my babies had sore eyes, so that the eyes had to be kept shaded all the time, and the Remedy cured her. I cannot say too much for it. If everybody knew what it would do, and try it, a world of suffering would be saved.

Following is the Report of Tuesday's Session.

Communicated.

On Tuesday morning the first thing called for was superintendents reports and the following reported: Superintendent for parlor meetings, homes for homeless children. At this point Mrs. Shepard, of Oxford, was introduced and spoke at length upon the orphanage at Oxford.

Superintendent of medal contest work reported next, then superintendents of mercy and narcotics whose reports brought forth a long and most earnest discussion.

Memorial service was conducted by Mrs. J. P. Morris. Mrs. Thurman gave a most impressive talk on Miss Willard's life, their intimate acquaintance, and Miss Willard's love for all races.

The first thing called for in the afternoon were the reports of superintendents of scientific temperance instruction and loyal temperance legion. After this, keeping time with the music, the delegation of L. T. L's from Greensboro and the surrounding towns marched in. An L. T. L. oratorical medal contest was held. Prof. Thomas, of Bennett, Mrs. M. T. Pope, of Charlotte, and Miss Mary Fitzgerald, of Durham, were selected as judges. Little Margie Malry, of Greensboro, received the medal, which was presented by Prof. Thomas.

The treasurers report, which was most encouraging, was then received. A rising vote of thanks was tendered the treasurer for her faithful service.

The evening session was filled by a most pleasing address by Mrs. Lucy Thurman on the history of the temperance work for the last twenty-five years. She said the movement began among women at Hillsboro, Ohio, and was the result of a story told by an man in church how his mother had saved his father by closing the barrooms in his native town. Rock of Ages was the first hymn sung, the 146 Psalms were read and these have since been peculiarly W. C. T. U. crusade selections. The history of the early work was continued, incidentally mentioning that at the beginning of the regular work in Cleveland a colored woman was present. She dwelt upon the colored man's part in history. Her reference to the colored men on the Maine was very pathetic, one of whom was once a pupil of her Sunday school class. She also mentioned the Winslow. At this point she expressed the most beautiful sentiments of pathos and patriotism. The organization has encircled the globe, it has broken down sectarianism, abolished to a large extent the use of fermented wine at communion service in 18 years under the leadership of Mrs. Mary H. Hunt, of Boston, scientific temperance institution is taught in the public schools of forty states, it has given the world a pure, spotless, consecrated and fearless Frances E. Willard, whose death was mourned in forty nations, it has sent out nine missionaries. She argued and showed by illustration that girls are as much in danger of strong drink as boys. She described the meeting of the last world's congress at Toronto. Toronto has twice as many churches as barrooms, has until recently never run a street car on Sunday, closes bar rooms at 7 p. m. on Saturday and opens again Monday morning. She argued for higher education for women and proved by examples women are fitted for the best education the world gives.

A grand festival concert in honor of the sixtieth anniversary of the coronation of Queen Victoria will take place at the Crystal Palace, London, on Saturday of this week. Patti will be one of the soloists. There will be 3000 voices in the choir, and an orchestra of 500 pieces.

All Hanna's Way.

Columbus, Ohio, June 21--The first day of the republican state convention shows that the friends of Hanna are in complete control, and will dictate the policy and platform through the aid of at least 750 delegates out of 850.

Up to the present but one incident has arisen to give the convention any life, and this was the arrival of the Cleveland delegation, headed by Mayor McKisson. The Hanna organization is very emphatic in declaring that not a man wearing a McKisson badge would be allowed to sit as a delegate. Although they were given the privilege of the floor at the preliminary meeting today there is no doubt that the committee on credentials will oust them.

Merit Appreciated.

Prof. J. M. Bandy has for years been recognized by the profession as one of the finest mathematicians in the state, and a very superior teacher. Having recently turned his attention to civil engineering, he is rapidly taking rank with the foremost surveyors. Recently he located a railroad for the Messrs. Page, who are so competent to judge of efficient service, and now he is engaged on the Cape Fear and Northern railroad, which is being constructed by Messrs. G. B. Alford, M. A. Angier and B. N. Duke. These gentlemen are competent judges of merit and appreciate home talent.—N. C. Christian Advocate.

Should Be Examined.

There is some complaint being made that the old frame building on the corner of West Market and North Greene streets is in a badly dilapidated condition. The roof is almost completely rotten and the whole building is becoming much decayed. It is a veritable firetrap. It should be examined and if dangerous should be condemned.

Revival Meeting.

A revival meeting is in progress now at Spring Garden M. E. church led by Rev. Joseph S. Duxbury, of Washington, C. C. All are cordially invited. Rev. N. M. Cooper, P. C.

Notes of The Prowler

The Prowler passed the trocha and bombardment of tobacco juice in front of Uncle Sam's dwelling this morning and appeared at the office a little wearied. The Prowler had been attending the sessions of the court all the week and had tired somewhat of legal lore and sharp cross firing in the temple of justice. Pulling out a box he struck at an offending fly and began as follows: "There may be some pleasure in being a bloated bondholder and a manager of railroads with sleeping cars, special trains and all that but somehow that old saying about uneasy lies the head that wears a crown seems to fit their case exactly. This term of court seems to have a silver lining for the Southern railway—there are sixteen suits against this one company. The cases so far have proven to be "Spanish" victories for the great trunk line. Even such a privilege as associating with wealthy Pullman car porters would not tempt me to exchange places with old man Spencer himself.

"Well, after all I am glad I have no great accumulation of wealth to worry me and cause me sleepness nights." Such a hearty assent greeted the last sentiment that the Prowler lost his balance on the box and was buried beneath a pile of old exchanges.

Swell Styles.

Are those beautiful new hand made, English shape, men's shoes just received at the Carolina Shoe Co.'s. $3.00, $3.50, $4.00, and $5.00. Every pair warranted. S. B. Norris, Manager.

Bad management keeps more people in poor circumstances than any other one cause. To be successful one must look ahead and plan ahead so that when a favorable opportunity presents itself he is ready to take advantage of it. A little forethought will also save much expense and valuable time. A prudent and careful man will keep a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house, the shiftless fellow will wait until necessity compels it and then ruin his best horse going for a doctor and have a big doctor bill to pay, besides; one pays out 25 cents, the other is out a hundred dollars and then wonders why his neighbor is getting richer while he is getting poorer. Bridge For North Buffalo.

We have been shown drawings by City Engineer W. R. Richardson for a new bridge to be built across North Buffalo. The bridge will be forty-four feet long and twenty feet wide supported by two stone piers. The plans are well conceived and combine the elements of simplicity, strength and durability.

By the way, some good work is being done on the grade of the cemetery hill just this side of North Buffalo. With the new bridge, the new grading and the rock roadway recently built just beyond the creek a splendid driveway in the direction of Guilford Battle Ground will have been started.

I was seriously afflicted with a cough for several years, and last fall had a more severe cough than ever before. I have used many remedies without receiving much relief, and being recommended to try a bottle of Chamberlain's Cough Remedy, by a friend, who, knowing me to be a poor widow, gave it to me, I tried it, and with the most gratifying results. The first bottle relieved me very much and the second bottle has absolutely cured me. I have not had as good health for 20 years. Respectfully, Mrs. Mary A. Beard, Claremore, Ark. Sold by C. E. Holton.

50 bushels clay peas for sale. Lee S. Smith, Guilford College, N. C.

The Pic-Nickers Tomorrow.

The Sunday school of the First Presbyterian church will give its annual pic-nic tomorrow at the Battle Ground. An excursion train will be run to carry the happy crowd to this historic ground. A day of rare sport and pleasure is anticipated by the juvenile members of the school and the others do not intend to spend a dull day there either. We wish all a happy and jolly holiday
